COMMUNICATION REGARDING REPLACEMENT SPECIFICATION

Dear Sir:

The parent application of this continuation is PCT/KR01/02228, filed December 21, 2001. In consideration of United States patent practice, the PCT specification has been reformatted in accordance with U.S. requirements: to include paragraph rather than line numbering, to include a cross reference to the PCT parent and a claim for foreign priority, to include subject headings, to include an Abstract, and to include a set of claims drafted in United States format. No new matter has been added. For the convenience of the Examiner, a copy of the published PCT parent is also enclosed.

Respectfully submitted,

June 20, 2003
